[PORTFOLIO WEBSITE](#)

Security-driven Full-Stack Engineer with over 5 years of experience architecting scalable applications and a core academic and practical background in Cybersecurity. I combine expertise in penetration testing and network defense with advanced proficiency in Next.js, Django, and AWS to build high-performance systems with secure REST APIs. Proven track record of delivering responsive, end-to-end cloud deployments while rigorously enforcing data protection standards, secure coding practices, and authentication protocols.

Education

The Federal University of Technology Akure, Nigeria

(Oct 2025)

Bachelor of Technology in Cyber Security, **Second Class Honours (4.09/5.0)**

Dissertation Topic: **A Secure SAAS-based Multi-tenant Learning Management System Using Data Isolation And Role-based Access Control.**

Relevant Courses: **Network Security; Cryptography; Penetration Testing; Operating Systems; Secure Software Engineering.**

Research Experience

Institution: The Federal University of Technology Akure, Nigeria (Undergraduate Thesis)

Mar-Oct 2025

Dissertation: **A Secure SAAS-based Multi-tenant Learning Management System Using Data Isolation And Role-based Access Control.**

Certifications

- | | | |
|--|------|----------------------|
| • Jobberman Soft Skills Training Certification | 2022 | View |
| • Python Certification from Side Hustle | 2022 | View |
| • Frontend Development (React JS) from Side Hustle | 2022 | View |

Work Experience

Cyber Security Intern | Cyber Lab FUTA

Jun 2024 – Nov 2024

- Gained hands-on experience with network security, firewalls, and authentication protocols to strengthen system defenses.
- Conducted penetration testing using industry-standard tools to enhance application security and data protection.
- Technologies: Cybersecurity Tools, AWS Security, Encryption Methods, Firewalls, Secure API Implementation.
- Skills: Threat Analysis, Problem-Solving, Critical Thinking, Communication, Team Collaboration.

Frontend Developer | Pluttr

Jun 2024

- Developed an expense-tracking app using React.js, Firebase, and Cloud Functions, streamlining financial management for users.
- Integrated Ant Design and additional technologies to enhance user experience and improve interface accessibility.
- Technologies: Next.js, AWS, Databases, REST APIs, Git.
- Skills: Problem-Solving, Communication, Team Collaboration, Critical Thinking

Web Development Instructor | N-TECH SYSTEMS

Jun 2024

- Delivered hands-on training in Python, Django, JavaScript, TypeScript, Node.js, React.js, and Next.js, guiding students in full-stack development.
- Taught database management, REST APIs, and scalable application principles through structured lessons and projects.
- Led coding workshops and mentorship sessions, refining students' debugging, optimization, and problem-solving skills.
- Technologies: Python, Django, JavaScript, TypeScript, Node.js, React.js, Next.js, Redux, Tailwind CSS, Databases, REST APIs, Git, AWS, Docker, Nginx
- Skills: Teaching, Communication, Team Collaboration, Problem-Solving, Debugging, Code Optimization

Full Stack Developer | Twonodes Technologies

Jul 2024 – Present

- Created a user-friendly website with GIS functionalities, enhancing Twonodes Technologies' service offerings and accessibility.
- Engineered REVA Project, a full-stack application for streamlined land report requests, improving efficiency in real estate due diligence.
- Optimized performance and scalability using Next.js and AWS, ensuring seamless system integration and enhanced user satisfaction.
- Designed responsive website layouts, significantly increasing accessibility and engagement across multiple devices.
- Technologies: Next.js, AWS, Databases, REST APIs, Git, Google Map API
- Skills: Problem-Solving, Communication, Team Collaboration, Critical Thinking

Frontend Developer | Nataguard

Jan 2024 – Apr 2024

- Developed an AI-powered Next.js web application to assist medical practitioners and pregnant women

in monitoring pregnancy conditions.

- Successfully integrated dynamic data capabilities, improving real-time insights for healthcare professionals.
- Technologies: Next.js, API Integration
- Skills: Problem-Solving, Communication, Team Collaboration.

Full Stack Developer | Apex Verification Service Ltd

Jun 2022 – May 2023

- Built a full-stack web application for identity verification (NIN, BVN), improving client security and data validation processes.
- Implemented tailored software solutions that enhanced system functionality and user experience.
- Leveraged React.js, Django, and AWS to optimize platform performance and scalability.
- *Technologies: React.js, Django, AWS, Databases, REST APIs*
- *Skills: Problem-Solving, Critical Thinking, Team Collaboration, Adaptability*

Freelance Web Developer | Myworldsim App

Jun 2023 – Aug 2023

- Developed a full-stack web application offering connectivity services through local, regional, and global eSIMs, enabling users to stay connected to the internet anywhere.
- Designed and maintained responsive website layouts, significantly improving user experience across various devices.
- Implemented custom software solutions based on client requirements, enhancing overall system performance and user satisfaction.
- Utilized Next.js for frontend development, Django for backend integration, and deployed on Digital Ocean.
- Technologies: Next.js, Django, Digital Ocean, Databases, REST APIs.
- Skills: Communication, Problem-Solving, Adaptability, Teamwork

Full Stack Developer | PeersApp

Apr 2022 – Jun 2024

- Developed and maintained the web front-end of a chat application using React.js.
- Implemented a robust backend architecture using Django and Django Rest Framework.
- Engineered asynchronous APIs for the chat application using Django Channels for real-time communication.
- Actively contributed to team communication strategies and improved internal collaboration.
- Technologies: React.js, Web Socket, Django, Django Channels, REST APIs, Git
- Skills: Team Collaboration, Communication, Critical Thinking, Problem-Solving

Frontend Intern | SideHustle

Mar 2022 – Jun 2022

- Collaborated with team members to achieve targeted project results.
- Developed high-quality user interfaces mainly using React.js.
- Built and maintained effective and professional working relationships.
- Improved communication skills and strengthened online etiquette.
- Technologies: React.js, HTML, CSS, Git.
- Skills: Team Collaboration, Communication.

Skills

Technical Skills:

- Python, Django
- Javascript, TypeScript, NodeJs/ExpressJs, ReactJs, NextJs, Redux, Tailwind CSS
- AWS, Nginx, Docker, Firebase, Databases, REST APIs
- Version Control, Git, Web Security.

Soft Skills:

- Problem-Solving, Communication Skills,
- Team Collaboration, Critical Thinking, Attention to Detail.

PROJECTS

- **Pluttr**

<https://app.pluttr.com>

An expense-tracking app using React.js, Firebase, and Cloud Functions, streamlining financial management for users.

- **Nataguard**

<https://nataguard.vercel.app/>

A web application with Next.js to assist medical practitioners and pregnant women in monitoring pregnancy conditions and providing recommendations. Successfully integrated an AI-powered backend to display dynamic and responsive data.

- **Geegpay Admin Dashboard**

<https://geegpay-challenge-xi.vercel.app/>

A pixel-perfect admin dashboard for the Geegpay hackathon using Next.js. Demonstrated expertise in implementing complex UI designs and ensuring high responsiveness.

- **eSIM Project**

<https://esim-pro-ebon.vercel.app/>

A Next.js application that fetches data from a Django backend and external APIs to display available eSIMs. Highlighted skills in API integration, dynamic data fetching, and building scalable user interfaces.

- **Next.js WhatsApp Clone**

<https://nextjs-whatsapp-clone-ten.vercel.app/>

A WhatsApp clone application using Next.js, showcasing proficiency in creating interactive user interfaces and real-time functionalities.

- **Portfolio Website**

<https://portfolio-roji-tech.vercel.app/>

Designed and developed a personal portfolio website using Next.js to showcase technical skills, projects, and professional experience.

- **Inventory Management Dashboard**

<https://inventory-pro-six.vercel.app/>

Built a user-friendly inventory management dashboard, consuming backend APIs and implementing complex functionalities according to provided Figma designs.

- **React Tic-Tac-Toe**

<https://react-tic-tac-toe-one-mu.vercel.app/>

Built an interactive Tic-Tac-Toe game using React.js and JavaScript, demonstrating a strong understanding of fundamental game logic and UI development.

- **Food Store App**

<https://food-order-phi.vercel.app/>

Created a responsive food store application using React.js, fetching and displaying data on available food items through API integration.
